

Exam	Microsoft MS-900 Exam
Title	Microsoft 365 Fundamentals Exam
Version	7.0
Product Type	50 Q&A with explanations

Product Questions: 50

Version: 7.0

Question: 1

A company plans to migrate to Microsoft 365.

You need to advise the company about how Microsoft provides protection in a multitenancy environment. What are three ways that Microsoft provides protection? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Customer content at rest is encrypted on the server by using BitLocker.
- B. Microsoft Azure AD provides authorization and role based access control at the tenant layer.
- C. Customer content at rest is encrypted on the server by using transport layer security (TLS).
- D. Microsoft Azure AD provides authorization and role based access control at the transport layer.
- E. Mailbox databases in Microsoft Exchange Online contain only mailboxes from a single tenant.
- F. Mailbox databases in Microsoft Exchange Online contain mailboxes from multiple tenants.

Answer: BCF

Question: 2

You are the Microsoft 365 administrator for a company.

Your company plans to open a new office in the United Kingdom.

You need to provide penetration test and security assessment reports (or the new office.

Where can you locate the required reports?

- A. Data Governance page of the Security and Compliance portal.
- B. Compliance Manager page of the Services Trust portal
- C. Data Loss Prevention page of the Security and Compliance portal
- D. Regional Compliance page of the Services Trust portal

Answer: A

Question: 3

HOTSPOT

An organization plans to deploy Microsoft Intune.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
Data protection can be selectively applied to applications.	<input type="radio"/>	<input type="radio"/>
Microsoft Intune can define where corporate data is stored.	<input type="radio"/>	<input type="radio"/>
Once a device is registered with Microsoft Intune, device wipe will include the user's personal data.	<input type="radio"/>	<input type="radio"/>

Answer:

Answer Area

Statement	Yes	No
Data protection can be selectively applied to applications.	<input checked="" type="radio"/>	<input type="radio"/>
Microsoft Intune can define where corporate data is stored.	<input checked="" type="radio"/>	<input type="radio"/>
Once a device is registered with Microsoft Intune, device wipe will include the user's personal data.	<input type="radio"/>	<input checked="" type="radio"/>

Question: 4

DRAG DROP

Your company has a Microsoft 365 subscription.

You need to implement security policies to ensure that sensitive data is protected.

Which tools should you use? To answer, drag the appropriate tools to the correct scenarios. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: each correct selection is worth one point.

Tools	Scenario	Tool
Compliance Manager	Use the Microsoft Authenticator app to enable multi-factor authentication.	Tool
Identity and access management (IAM)	Classify documents to restrict permission to content.	Tool
Information rights management (IRM)	Use a dashboard for data-protection recommendations.	Tool
	Provide auditors and regulators with reports on data-protection status.	Tool

Answer:

Tools	Scenario	Tool
Compliance Manager	Use the Microsoft Authenticator app to enable multi-factor authentication.	Information rights management (IRM)
Identity and access management (IAM)	Classify documents to restrict permission to content.	Information rights management (IRM)
Information rights management (IRM)	Use a dashboard for data-protection recommendations.	Compliance Manager
	Provide auditors and regulators with reports on data-protection status.	Identity and access management (IAM)

Question: 5

HOTSPOT

You are planning a Microsoft Azure AD solution for a company.

For each of the following statements, select Yes if the statements true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statement	Yes	No
You can manage Azure AD-joined machines by using group policy.	<input type="radio"/>	<input type="radio"/>
Azure AD requires integration with Active Directory Domain Services by using secure Lightweight Directory Access Protocol (LDAP).	<input type="radio"/>	<input type="radio"/>
Azure AD supports Azure AD Authentication Library (ADAL) authentication.	<input type="radio"/>	<input type="radio"/>

Answer:

Statement	Yes	No
You can manage Azure AD-joined machines by using group policy.	<input type="radio"/>	<input checked="" type="radio"/>
Azure AD requires integration with Active Directory Domain Services by using secure Lightweight Directory Access Protocol (LDAP).	<input checked="" type="radio"/>	<input type="radio"/>
Azure AD supports Azure AD Authentication Library (ADAL) authentication.	<input type="radio"/>	<input checked="" type="radio"/>

Question: 6

HOTSPOT

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
Users have the same passwords in the cloud and on-premises.	<input type="radio"/>	<input type="radio"/>
Users must sign in again when using Microsoft 365.	<input type="radio"/>	<input type="radio"/>
You can configure federated authentication to require a smart card.	<input type="radio"/>	<input type="radio"/>

Answer:

Answer Area

Statement	Yes	No
Users have the same passwords in the cloud and on-premises.	<input checked="" type="radio"/>	<input type="radio"/>
Users must sign in again when using Microsoft 365.	<input checked="" type="radio"/>	<input type="radio"/>
You can configure federated authentication to require a smart card.	<input type="radio"/>	<input checked="" type="radio"/>

Question: 7

DRAG DROP

A company plans to migrate to a hybrid cloud infrastructure.

You need to determine where to manage the environment after the migration is complete.

Match each item to the location where it will be managed- To answer, drag the appropriate item from the column on the left to its location on the right. Each item may be used once, more than once, or not at all.

NOTE: Each correct selection is worth one point.

Configuration locations	Option	Configuration location
Microsoft 365 only	Configure multi-factor authentication for cloud services.	Configuration location
on-premises only	Configure email disclaimers.	Configuration location
both Microsoft 365 and on-premises	Configure compliance.	Configuration location
	Set frequency of Microsoft Office 365 updates.	Configuration location

Answer:

Configuration locations	Option	Configuration location
Microsoft 365 only	Configure multi-factor authentication for cloud services.	on-premises only
on-premises only	Configure email disclaimers.	both Microsoft 365 and on-premises
both Microsoft 365 and on-premises	Configure compliance.	Microsoft 365 only
	Set frequency of Microsoft Office 365 updates.	on-premises only

Question: 8

HOTSPOT

You are a Microsoft 365 administrator.

You need to implement the appropriate features for each scenario.

What should you implement? To answer, select the appropriate options at the answer area.

NOTE: Each correct selection is worth one point.

Scenario	Feature
Restrict access to Microsoft Outlook by using a PIN.	
Secure members of the Global Administrators group by using dynamic risk profiles.	
Secure admin roles by requiring approvals.	

Scenario	Feature
Restrict access to Microsoft Outlook by using a PIN.	Mobile application protection policy Device configuration policy
Secure members of the Global Administrators group by using dynamic risk profiles.	Microsoft Azure AD Identity Protection Microsoft Azure AD Conditional Access Microsoft Azure AD Privilege Identity Management
Secure admin roles by requiring approvals.	Microsoft Azure AD Identity Protection Microsoft Azure AD Privilege Identity Management Microsoft Azure AD Domain Services

Answer:

Scenario	Feature
Restrict access to Microsoft Outlook by using a PIN.	Mobile application protection policy Device configuration policy
Secure members of the Global Administrators group by using dynamic risk profiles.	Microsoft Azure AD Identity Protection Microsoft Azure AD Conditional Access Microsoft Azure AD Privilege Identity Management
Secure admin roles by requiring approvals.	Microsoft Azure AD Identity Protection Microsoft Azure AD Privilege Identity Management Microsoft Azure AD Domain Services

Question: 9

Your organization plans to deploy Microsoft 365 in a hybrid scenario. You need to ensure that employees can use a smart card for authentication. Which hybrid identity solution should you implement?

- A. password hash synchronization with single sign on
- B. Active Directory federation Services (AD FS)
- C. Ping federate and federation integration
- D. pass-through authentication and single sign-on

Answer: D

Question: 10

HOTSPOT

You implement Microsoft Azure Information Protection.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statement	Yes	No
You can supplement the default templates to apply restrictive controls.	<input type="radio"/>	<input type="radio"/>
Classification and protection information is available for on-premises file servers.	<input type="radio"/>	<input type="radio"/>
Installing the Azure Information Protection client installs an information protection bar to Microsoft Excel.	<input type="radio"/>	<input type="radio"/>

Answer:

Statement	Yes	No
You can supplement the default templates to apply restrictive controls.	<input checked="" type="radio"/>	<input type="radio"/>
Classification and protection information is available for on-premises file servers.	<input checked="" type="radio"/>	<input type="radio"/>
Installing the Azure Information Protection client installs an information protection bar to Microsoft Excel.	<input type="radio"/>	<input checked="" type="radio"/>

Question: 11

DRAG DROP

An organization plans to deploy Microsoft 365 in a hybrid scenario.

You need to provide a recommendation based on some common identity and access management scenarios. The solution must minimize costs.

Match each solution to its appropriate scenario. To answer, drag the appropriate solutions from the column on the left to the scenarios on the right. Each solution may be used once, more than once, or

not at all. Each correct match is worth one point.

NOTE: Each correct selection is worth one point.

Solutions	Scenario	Solution
Active Directory Federation Services (AD FS)	Enable a federation option for authentication in a hybrid environment.	solution
PingFederate and federation integration	Allow administrators to reset user passwords in Microsoft Azure AD.	solution
Password hash synchronization with single sign-on	Support nonfederated users authenticating with on-premises AD and supports multi-factor authentication.	solution
Pass-through authentication and single sign-on		

Answer:

Solutions	Scenario	Solution
Active Directory Federation Services (AD FS)	Enable a federation option for authentication in a hybrid environment.	Pass-through authentication and single sign-on
PingFederate and federation integration	Allow administrators to reset user passwords in Microsoft Azure AD.	PingFederate and federation integration
Password hash synchronization with single sign-on	Support nonfederated users authenticating with on-premises AD and supports multi-factor authentication.	Active Directory Federation Services (AD FS)
Pass-through authentication and single sign-on		

Question: 12

You are the Microsoft 365 administrator for a company.

An employee requests personal data under General Data Protection Regulation (GDPR) guidelines.

You need to retrieve data for the employee.

What should you do?

- A. Create a data subject request case.
- B. Create a retention policy.
- C. Create a data-loss prevention policy.
- D. Create a GDPR assessment

Answer: C

Question: 13

HOTSPOT

A company plans to deploy Microsoft Intune.

Which scenarios can you implement by using Intune? To answer, select the appropriate answer for the given scenarios.

NOTE: Each correct selection is worth one point.

Scenario	Yes	No
Intune app protection policies can protect access to Exchange Server on-premises mailboxes.	<input type="radio"/>	<input type="radio"/>
Intune app protection policies support apps that connect to on-premises Microsoft SharePoint Server.	<input type="radio"/>	<input type="radio"/>
Intune app protection policies require a mobile-device management (MDM) solution.	<input type="radio"/>	<input type="radio"/>

Answer:

Scenario	Yes	No
Intune app protection policies can protect access to Exchange Server on-premises mailboxes.	<input type="radio"/>	<input checked="" type="radio"/>
Intune app protection policies support apps that connect to on-premises Microsoft SharePoint Server.	<input checked="" type="radio"/>	<input type="radio"/>
Intune app protection policies require a mobile-device management (MDM) solution.	<input checked="" type="radio"/>	<input type="radio"/>

Question: 14

DRAG DROP

You have a hybrid environment that includes Microsoft Azure AD. On-premises applications use Active Directory Domain Services (AD DS) for authentication.

You need to determine which authentication methods to use.

Match each feature to its authentication source. To answer, drag the appropriate authentication sources from the column on the left to the client features on the right. Each authentication source may be used once, more than once, or not at all.

NOTE: Each correct selection is worth one point.

Authentication sources	Answer Area
AD DS only	Client feature
Azure AD only	Log on to devices by using Windows Hello.
AD DS and Azure AD	Log on to devices that are managed by Microsoft Intune.
	Sign in to Outlook on the web by using multi-factor authentication.

Answer:

Authentication sources	Answer Area
AD DS only	Client feature
Azure AD only	Log on to devices by using Windows Hello.
AD DS and Azure AD	Log on to devices that are managed by Microsoft Intune.
	Sign in to Outlook on the web by using multi-factor authentication.

Question: 15

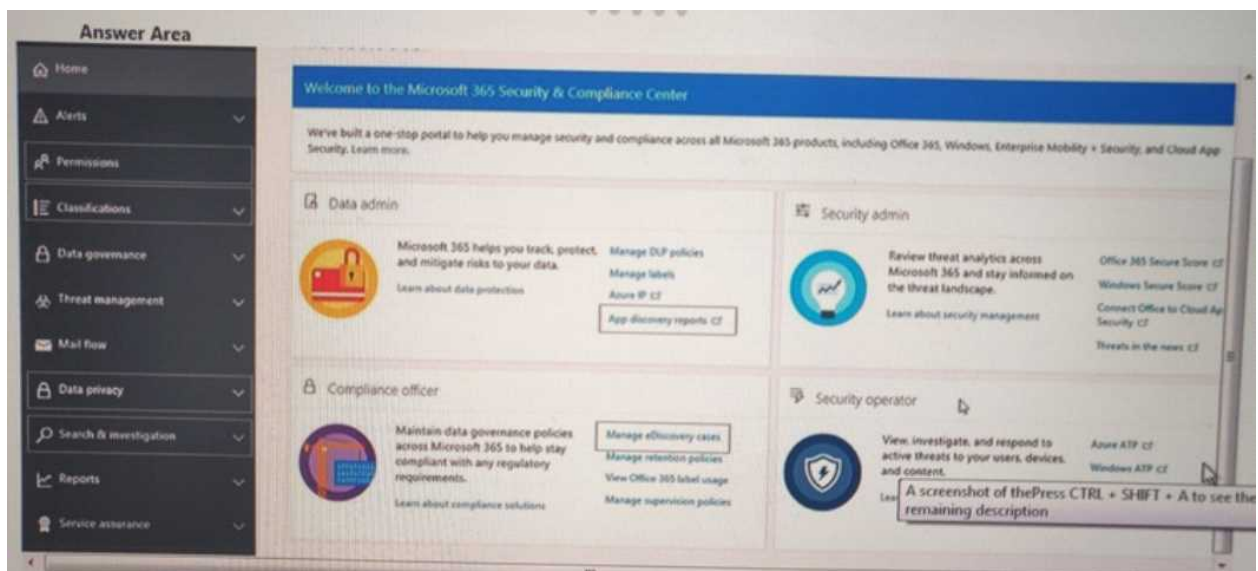

HOTSPOT

A company uses Microsoft 365 Business to address its compliance needs. A customer requests a complete disclosure of all personal data that relates to them.

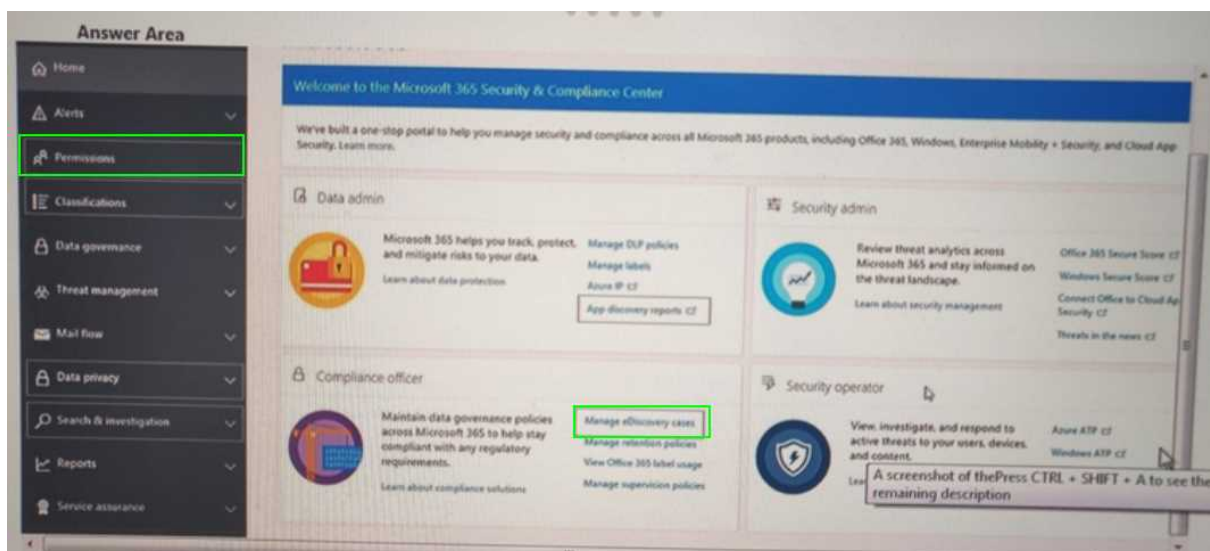

You need to create a new data subject request (OSR) case and ensure that compliance managers can view all DSR case findings.

In which two areas must you perform actions? To answer, select the appropriate areas in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Question: 16

DRAG DROP

You are the Microsoft 365 administrator for a company. The company supports an aggressive rollout of features.

You need to release features as soon as they are released.

Which feature phase should you use for each development step? To answer, drag the appropriate feature phases to the correct development steps. Each feature phase may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content

NOTE: Each correct selection is worth one point.

Feature phases	Answer Area
Private	Development step
Public Preview	Complete compliance testing.
General Availability	Complete QA testing for recently released features.
	Prepare QA results and end-user documentation.
	Feature phase
	Feature phase
	Feature phase

Answer:

Feature phases	Answer Area
Private	Development step
Public Preview	Complete compliance testing.
General Availability	Complete QA testing for recently released features.
	Prepare QA results and end-user documentation.
	Feature phase
	Feature phase
	Feature phase

Question: 17

DRAG DROP

An organization is considering migrating resources to the cloud. The company does not plan to deploy Microsoft /Vure Expressfioute or site to site VPNs.

You need to identify winch workloads you can migrate to the cloud.

Which workloads you can migrate to the cloud? To answer, drag the appropriate actions to the correct workloads. Each action may be used once, more than once, or not at al. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Actions	Answer Area
Migrate to the cloud	Workload
Remain on-premises	You have a legacy application that requires connectivity with an on-premises data store.
	You need to deploy an external-facing website.
	You need to deploy a Microsoft SharePoint collaboration site for partners.
	Action
	Action
	Action

Answer:

Actions	Answer Area								
<input type="checkbox"/> Migrate to the cloud <input type="checkbox"/> Remain on-premises	<table border="1"> <thead> <tr> <th>Workload</th> <th>Action</th> </tr> </thead> <tbody> <tr> <td>You have a legacy application that requires connectivity with an on-premises data store.</td> <td><input type="checkbox"/> Remain on-premises</td> </tr> <tr> <td>You need to deploy an external-facing website.</td> <td><input type="checkbox"/> Remain on-premises</td> </tr> <tr> <td>You need to deploy a Microsoft SharePoint collaboration site for partners.</td> <td><input type="checkbox"/> Migrate to the cloud</td> </tr> </tbody> </table>	Workload	Action	You have a legacy application that requires connectivity with an on-premises data store.	<input type="checkbox"/> Remain on-premises	You need to deploy an external-facing website.	<input type="checkbox"/> Remain on-premises	You need to deploy a Microsoft SharePoint collaboration site for partners.	<input type="checkbox"/> Migrate to the cloud
Workload	Action								
You have a legacy application that requires connectivity with an on-premises data store.	<input type="checkbox"/> Remain on-premises								
You need to deploy an external-facing website.	<input type="checkbox"/> Remain on-premises								
You need to deploy a Microsoft SharePoint collaboration site for partners.	<input type="checkbox"/> Migrate to the cloud								

Question: 18

You are the Microsoft 365 administrator for a company.

Users in the [T department must receive new Office 365 preview features before the features are deployed to other users in the company.

You need to ensure only the users in the U department receive preview features.

Which two actions should you perform? Each correct answer represents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Instruct users to navigate to <http://insider.office.com> and sign up for Office Insider.
- B. Instruct users to update Office ProPlus.
- C. In the organizational profile, set the update preference to Targeted release for selected users
- D. Instruct users to uninstall Office ProPlus and then reinstall the software.
- E. In the organizational profile, set the update preference to Standard release.

Answer: DE

Question: 19

A company is a Microsoft 365 reseller. The company does not provide managed services or direct customer support. You need to provide licenses for customers and earn commissions for each license sold. What should you do?

- A. Buy licenses for customers by using the Microsoft admin portal
- B. Sign up as a Cloud Solution Provider direct reseller.
- C. Sign up as a Cloud Solution Provider indirect reseller.
- D. Buy licenses for customers from a Microsoft authorized distributor.

Answer: A

Question: 20

A company that has 50 employees plans to purchase a Microsoft 365 Business subscription.

Which two payment methods are available? Each correct answer presents a complete solution

NOTE: Each correct selection is worth one point.

- A. PayPal
- B. automatic bank transfer
- C. Enterprise Agreement
- D. credit card or debit card

Answer: AD

Question: 21

A company has 250 employees.

You need to migrate all users to Microsoft 365 and meet the following requirements:

- Provide a user-centric licensing solution for all users.
- Manage devices from a single location.
- Minimize licensing costs.

Which licensing model should you use?

- A. Microsoft 365 Business
- B. Microsoft 365 Education
- C. Microsoft 365 Enterprise E3
- D. Microsoft 365 Enterprise E5

Answer: B

Question: 22

You are the Microsoft 365 administrator for a company.

A user experiences an issue with SharePoint Online.

You need to resolve the issue.

Which two options can you use? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Go to the SharePoint admin center and create a support request.
- B. Contact Microsoft technical support by telephone.
- C. Create a new service request from the Microsoft 365 admin center.
- D. Create a service request from the SharePoint portal.

Answer: CD

Question: 23

You are the Microsoft 365 administrator for a company.

A user experiences an issue with SharePoint Online.

You need to resolve the issue.

What two options can you use? Each correct answer presents a complete solution

NOTE: Each correct selection is worth one point.

- A. Go to the SharePoint admin center and create a support request.
- B. Contact Microsoft technical support by telephone.
- C. Create a new service request from the Microsoft 365 center.
- D. Create a service request from the SharePoint portal.

Answer: AC

Question: 24

HOTSPOT

A company subscribes to Microsoft 365.

You need to ensure that all administrators receive email notifications about potential service disruptions.

Which three options in the Edit Message center preferences dialog box should you select? To answer, select, the appropriate items in the dialog box in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Edit Message center preferences [X]

Which messages do you want to see in Message center?

	Azure Information Protection	<input type="checkbox"/> Off
	Identity Management Service	<input type="checkbox"/> Off
	Microsoft Exchange	<input checked="" type="checkbox"/> On
	Microsoft Intune	<input checked="" type="checkbox"/> On
	Mobile Device Management for Office 365	<input type="checkbox"/> Off
	Office 365 Portal	<input type="checkbox"/> Off
	Office Subscription	<input checked="" type="checkbox"/> On

[More]

Answer Area

More

Would you like to receive email communication?

Choose whether you'd like us to email you a weekly digest or notify you when a major update or data privacy breach message is published

Send a weekly email digest of my messages ☒ On

Send me emails for major updates ☐ Off

☒ Primary email address

☐ Other email addresses

Please enter up to 2 email addresses, separated by a semicolon

Answer:

Answer Area

Question: 25

You are a Microsoft 365 administrator for a company.

Microsoft plans to release a new feature for Microsoft Excel.

You need to ensure that the feature becomes available for employees to install as soon as possible. To which release channel should you subscribe?

- A. Microsoft release
- B. Standard release
- C. Office 365 team release
- D. Targeted release

Answer: C

Question: 26

DRAG DROP

You are a Microsoft 365 administrator for a company.

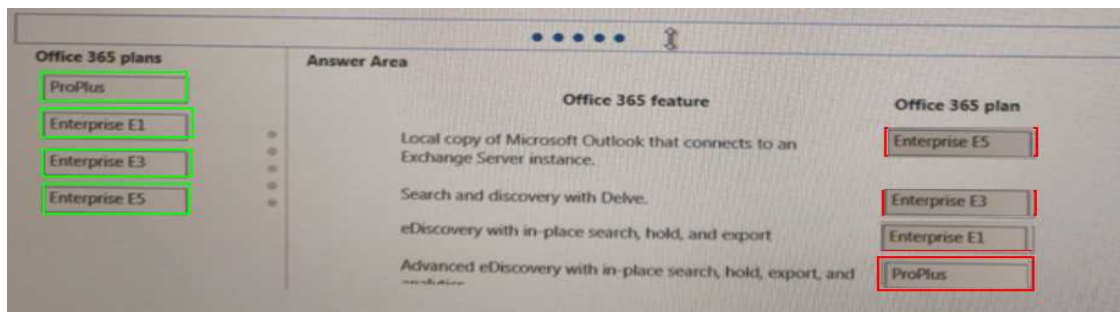

You need to recommend an appropriate Microsoft Office 365 plan for a customer that minimizes costs.

Which subscription plans should you recommend? To answer, drag the appropriate plans to the correct features. Each plan may be used once, more than once, or not at all.

NOTE: Each correct selection is worth one point.

Office 365 feature	Office 365 plan
Local copy of Microsoft Outlook that connects to an Exchange Server instance.	Office 365 plan
Search and discovery with Delve.	Office 365 plan
eDiscovery with in-place search, hold, and export	Office 365 plan
Advanced eDiscovery with in-place search, hold, export, and resolution	Office 365 plan

Answer:

Question: 27

You are the Microsoft 365 administrator for a company.
 Your company wants to learn more about what happens if the availability of the Microsoft Office 365 services are not met.
 Where can you find this information?

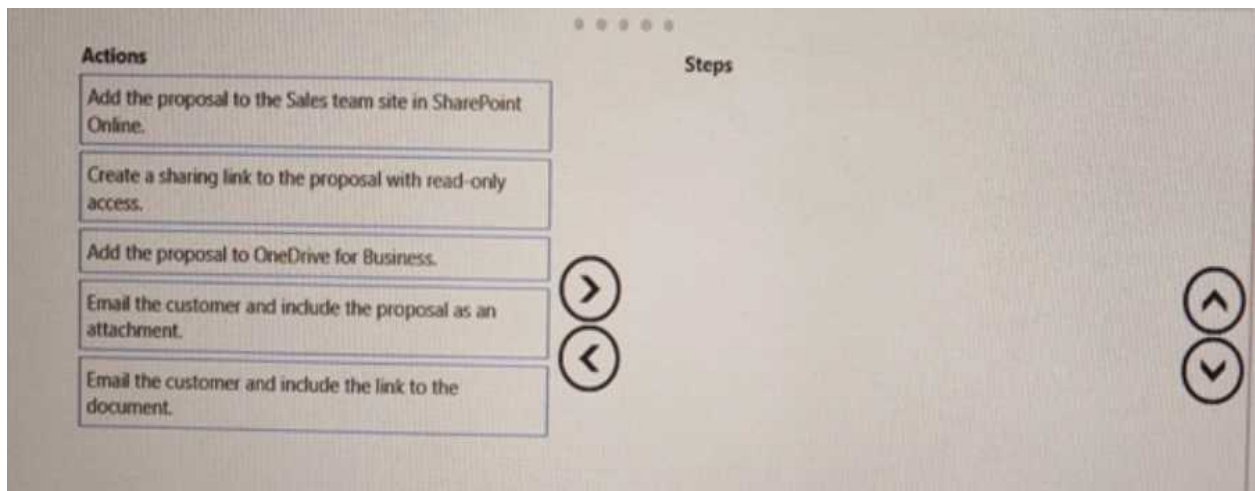

- A. Service Level agreement
- B. Microsoft Services agreement
- C. Microsoft Cloud agreement
- D. Microsoft Products and Services agreement
- E. Microsoft Enterprise agreement

Answer: A

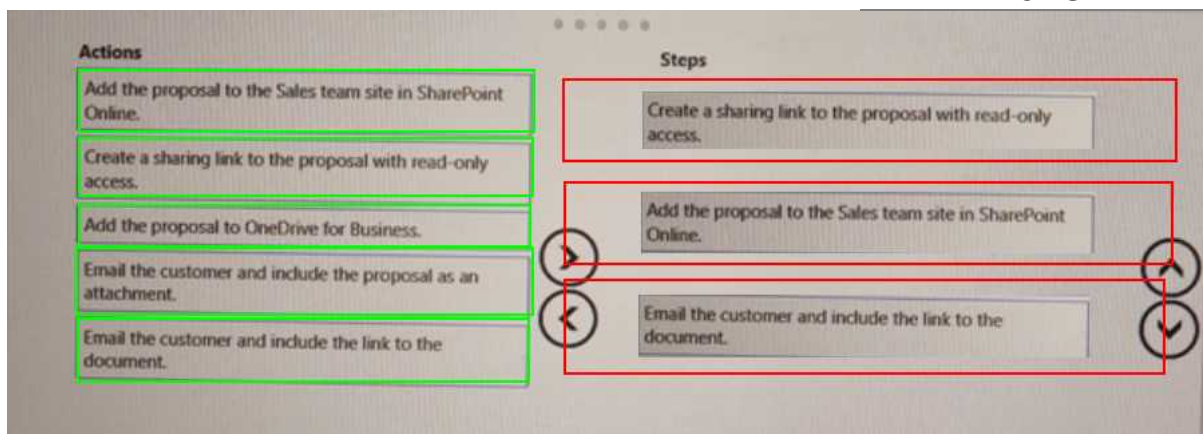

Question: 28

DRAG DROP

You are a member of a Microsoft Office 365 group named Sales. You create a proposal for a customer by using Word Online.
 All team members must be able to review and make changes to the proposal at the same time. After the proposal is completed, you must share the final document with the customer in read-only format.
 You need to ensure that the customer sees the most recent version of the document.
 Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Answer:

Question: 29

HOTSPOT

You manage point-of-sale terminals that run Windows 7.

You must upgrade the terminals to Windows 10. Terminals will not be upgraded again for at least five years. You have the following requirements:

- Perform consistent scheduling of upgrades across all devices.
- Minimize costs.

You need to prepare for the upgrades.

What should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Option	Value
Windows 10 version	<div>Windows 10 Pro Windows 10 Home Windows 10 Enterprise Windows 10 Enterprise LTSC</div>
Servicing channel	<div>Semi-annual channel Long-term servicing channel Semi-annual channel (targeted) Insider</div>
Servicing tool	<div>Microsoft Intune Windows Autopilot Windows Server Update Services System Center Configuration Manager</div>

Answer:

Option	Value
Windows 10 version	<div>Windows 10 Pro Windows 10 Home Windows 10 Enterprise Windows 10 Enterprise LTSC</div>
Servicing channel	<div>Semi-annual channel Long-term servicing channel Semi-annual channel (targeted) Insider</div>

Question: 30

You are the Microsoft 365 administrator for a company.
You install Microsoft Office 365 ProPlus on five devices. You deactivate one device.
Which task can you perform on the deactivated device?

- A. Print a document.
- B. Leave a comment in a document.
- C. Start a new document from a template.
- D. Set properties on a document.

Answer: D

Question: 31

DRAG DROP

A company plans to deploy collaboration tools for employees. The company does not plan to deploy a hybrid environment. You need to identify the features that are available in Teams and Skype for Business Server.

Match each environment to its feature. To answer, drag the appropriate environment from the column on the left to the features on the right. Each environment may be used once, more than once, or not at all.

NOTE: Each correct selection is worth one point.

Answer:

Question: 32

HOTSPOT

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area		
Statement	Yes	No
You can assign apps to devices that are not enrolled with Microsoft Intune.	<input type="radio"/>	<input type="radio"/>
You can assign wrapped apps, or apps that incorporate the Intune SDK, only if the device is enrolled with Intune.	<input type="radio"/>	<input type="radio"/>
You can install available apps from the web-based Company Portal app regardless of whether the device is enrolled with Intune.	<input type="radio"/>	<input type="radio"/>

Answer:

Answer Area		
Statement	Yes	No
You can assign apps to devices that are not enrolled with Microsoft Intune.	<input checked="" type="radio"/>	<input type="radio"/>
You can assign wrapped apps, or apps that incorporate the Intune SDK, only if the device is enrolled with Intune.	<input type="radio"/>	<input checked="" type="radio"/>

Question: 33

This question requires that you evaluate the underlined text to determine if it is correct.

A company needs to protect documents and emails by automatically applying classifications and labels. You must minimize costs. You should implement Microsoft Azure Information Protection for Microsoft Office 365.

Review the underlined text. If it makes the statement correct, select No change is needed. If the statement is incorrect, select the answer choice that makes the statement correct.

- A. No change needed.
- B. Azure Information Protection Premium P2
- C. Azure Information Protection Premium P1
- D. Microsoft 365 E3

Answer: A

Question: 34

DRAG DROP

You are the Microsoft 365 administrator for a company.

You need to identify the different features of MyAnalytics and Workplace Analytics.

What are the different features? To answer, drag the appropriate applications to the correct features.

Each application may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Question: 35

You use Microsoft 365 Usage Analytics.

You need to know the number of users who are active today and were also active last month.

Which metric should you use?

- A. MoMReturningUsers
- B. EnabledUsers
- C. ActiveUsers
- D. CumulativeActiveUsers

Answer: A

Question: 36

Your organization plans to deploy a subscription-based licensing model of Microsoft Office to devices.

You must use group policy to enforce Office application settings.

You need to deploy Office to the enterprise.

Which version of Office should you deploy?

- A. Office 365 ProPlus
- B. Office Professional Plus 2016
- C. Office Online
- D. Office Home and Business 2016

Answer: A

Question: 37

HOTSPOT

An organization has a Microsoft 365 subscription. You plan to implement multi-factor authentication. For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statement	Yes	No
After users are enrolled in multi-factor authentication, they must configure a second authentication factor the next time they sign in.	<input type="radio"/>	<input type="radio"/>
Enabling multi-factor authentication requires an additional subscription purchase.	<input type="radio"/>	<input type="radio"/>
Complete multi-factor authentication by using text messages, a smartphone app, or a phone call.	<input type="radio"/>	<input type="radio"/>

Answer:

Statement	Yes	No
After users are enrolled in multi-factor authentication, they must configure a second authentication factor the next time they sign in.	<input checked="" type="radio"/>	<input type="radio"/>
Enabling multi-factor authentication requires an additional subscription purchase.	<input checked="" type="radio"/>	<input type="radio"/>
Complete multi-factor authentication by using text messages, a smartphone app, or a phone call.	<input checked="" type="radio"/>	<input type="radio"/>

Question: 38

An organization plans to deploy Microsoft Office 2019 or Office 365 ProPlus.

What are two advantages of Office 365 ProPlus? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point

- A. Features remain constant through the lifetime of the applications.
- B. Office 365 ProPlus includes downgrade rights.
- C. A single license may be deployed to multiple devices.

D. Fully functional Office mobile apps are free to install and use.

Answer: CD

Question: 39

DRAG DROP

You are the Microsoft 365 administrator for a company.

What Microsoft 365 components should employees use?

Match each component to its task. To answer, drag the appropriate components from the column on the left to the tasks on the right. Each component may be used once, more than once, or not at all.

NOTE: Each correct match is worth one point.

Components	Task	Component
Windows 10 Enterprise	Send an email to a distribution list.	component
Microsoft Exchange Online	Author a document at the same time as someone else and use document versioning.	component
Microsoft SharePoint Online	Hold a voice and video conversation with other employees.	component
Microsoft Teams	Register a personal device with the company.	component
Microsoft Enterprise Mobility + Security	View a personal calendar.	component

Answer:

Components	Task	Component
Windows 10 Enterprise	Send an email to a distribution list.	Microsoft SharePoint Online
Microsoft Exchange Online	Author a document at the same time as someone else and use document versioning.	Windows 10 Enterprise
Microsoft SharePoint Online	Hold a voice and video conversation with other employees.	Microsoft Exchange Online
Microsoft Teams	Register a personal device with the company.	Microsoft Teams
